Professor of Psychiatry and Chair  
Department of Psychiatry, University at Buffalo

#### **Josie Olympia, MD**

Associate Professor of Psychiatry  
Department of Psychiatry, University at Buffalo

## **Conference Objectives**

The conference goal is to update the participants on the latest advances in the diagnosis and management of a wide array of psychiatric disorders. Through lectures by internationally renowned speakers, followed by workshops and small group discussions on various tracks, complex data will be translated into simple, clinically relevant information useful to the practicing clinician. At the completion of this activity, the participant should be able to:

1. Recognize the clinical features of Anorexia Nervosa and understand the biopsychosocial etiologic factors contributing to the risk for the development of Anorexia Nervosa
2. Identify specific challenges related to the hospitalization of patients with Autism Spectrum Disorders and identify components for an evidence-based bundle of interventions to improve outcomes for such patients
3. Understand how the achievement of mental health insurance parity exemplifies progressive change made in a sequence of incremental reform
4. Identify common psychosocial themes in unipolar and bipolar mood disorders.
5. Integrate psychotherapy into treatment planning for somatic therapies for mood disorders.
6. Summarize the Motivational Interviewing (MI) research for behavioral change and understand the spirit of MI.
7. Learn the process and foundational skills of MI practice.
8. Understand the complexity of cannabis use, its health effects and the need for more research.

## **ACCREDITATION**

The University at Buffalo Jacobs School of Medicine and Biomedical Sciences is accredited by the ACCME to provide continuing medical education for physicians.

### **Certification**

The University at Buffalo Jacobs School of Medicine and Biomedical Sciences designates this live activity for a maximum of 12.00 AMA PRA Category 1 Credit(s)<sup>™</sup>. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
