### Target Audience
Psychiatrists, Primary Care MDs, Nurses, Psychologists, Pharmacists, Social Workers and other Mental Health Professionals

### Acknowledgments
The UB Department of Psychiatry and the WNY Psychiatric Society gratefully acknowledge the supporters of this conference which will be listed on the Day at a Glance brochure.

### Conference Objectives
The goal of this conference is to update the participants on the latest advances in the diagnosis and management of a wide array of psychiatric disorders. Through lectures by internationally renowned speakers, followed by workshops and small group discussions on various tracks, complex data will be translated into simple, clinically relevant information that will be useful to the practicing clinician. At the completion of this activity, the participant should be able to:

1. Become knowledgeable of the rates of ADHD among substance abusing populations and learn strategies to navigate the risk of stimulant non-medical use.
2. Improve MDD treatment strategies to achieve full remission including the effective recognition and treatment of residual symptoms.
3. Identify and understand the spirit, process, and skills of Motivational Interviewing (MI) and learn the clinical application of MI.
4. Understand the rationale for threat assessment as a violence prevention strategy in school and campus settings and be able to distinguish between serious, substantive threats of violence and transient threats that are not serious.
5. Learn the history of physician assisted suicide and euthanasia and understand the ethical argument that have been deployed to support this practice and the ethical argument against it.
6. Describe the emotional and behavioral disturbances associated with Traumatic Brain Injury.

### Program Directors

**Steven Dubovsky, MD**  
Professor of Psychiatry and Chair  
Department of Psychiatry, University at Buffalo

**Josie Olympia, MD**  
Associate Professor of Psychiatry  
Department of Psychiatry, University at Buffalo

### Speakers

- **David Arciniegas, MD**  
  Professor and Senior Research Neuropsychiatrist  
  Department of Psychiatry & Behavioral Sciences, University of New Mexico School of Medicine  
  Clinical Professor of Neurology and Psychiatry, University of Colorado School of Medicine  
  Chairman and CEO, International Brain Injury Association
